

Time Schedule (Day 1 November 7 (Thu))

Time	Venue : Hitotsubashi Hall		Chairs
8 : 55	Opening Remarks		
9 : 00	A-1	The tight junction-nuclear receptor signalling pathway in physiological and pathological states Kotaro Sugimoto (Fukushima Medical University School of Medicine)	Eiichi Morii (Osaka University)
9 : 40	A-2	Deciphering the function of metabolic enzymes that contribute to cancer progression Kenji Ohshima (Hyogo Medical University)	Atsushi Enomoto (Nagoya University)
10 : 20	A-3	Exploring the Mechanism of Epstein-Barr Virus-induced Oncogenesis Aya Shinozaki-Ushiku (Graduate School of Medicine, The University of Tokyo)	Hiroyuki Kanno (Shinshu University)
11 : 00	A-4	Cliniconeuropathological research on forensic autopsy cases Naoki Nishida (Faculty of Medicine, University of Toyama)	Koichi Wakabayashi (Hirosaki University)
11 : 40	B-1	Clinicopathological characteristics of undifferentiated endometrial carcinomas and their diagnostic pitfalls Atsushi Kihara (Jichi Medical University, Yokohama City University)	Hiroyuki Yanai (Okayama University Hospital)
12 : 10	Luncheon Seminar 1 <div style="border: 1px solid black; padding: 2px; text-align: center; margin: 5px 0;">Venue : Hitotsubashi Hall</div> Evolving NSCLC Treatment : The Role of Pathology in Personalized Medicine Yutaka Hatanaka (Hokkaido University Hospital) Chair : Shinichi Toyooka (Okayama University) Sponsored : AstraZeneca K.K.	Luncheon Seminar 2 <div style="border: 1px solid black; padding: 2px; text-align: center; margin: 5px 0;">Venue : 701+702</div> Asbestos, Asbestos Bodies, Asbestos-related Lung Cancer Norihiko Kohyama (National Institute of Occupational Safety and Health) Chair : Kenji Morinaga (Environmental Restoration and Conservation Agency of Japan) Sponsored : Environmental Restoration and Conservation Agency of Japan	Luncheon Seminar 3 <div style="border: 1px solid black; padding: 2px; text-align: center; margin: 5px 0;">Venue : Heian</div> The latest trends of drug treatment and biomarker testing in advanced gastric cancer Treatment strategies for advanced gastric cancer based on clinicopathological analysis Hiroki Hara (Saitama Cancer Center) Biomarker testing for immune checkpoint inhibitors in pathological practices Takeshi Kuwata (National Cancer Center Hospital East) Chair : Ryoji Kushima (Shiga University of Medical Science) Sponsored : MSD K.K.
13 : 10	Special Lecture on Pathological Diagnosis 1 SLPD1 Morphologic, phenotypic, and molecular diversity of non-terminal respiratory unit type lung adenocarcinomas Toshiro Niki (Kotobiken Medical Laboratories, Jichi Medical University)		Yasushi Yatabe (National Cancer Center Hospital)
14 : 20	General Meeting		
15 : 40	Symposium 1 「Future prospects for pathology research: Frontiers of New science & technology」 SY1-1 Pathological research using fluorescent imaging technology Takahiro Matsui (Osaka University Graduate School of Medicine) SY1-2 Pathological studies focusing on rare epithelial cells and their phenotypes Yosuke Yamada (Graduate School of Medicine, The University of Tokyo) SY1-3 Advances in Salivary Gland Regeneration and Disease Research through Organoid Technology Junichi Tanaka (Showa University School of Dentistry) SY1-4 Development of novel therapeutic approaches targeting the tumor microenvironment and deregulated enhancers Miwa Tanaka (Proj. Cancer Epigenomics, Cancer Inst., JFCR.) SY1-5 Modeling, understanding and targeting poor-prognosis leukemia Fumihiko Ishikawa (Institute of Science Tokyo, Laboratory for Human Disease Models, RIKEN)		Junichiro Ikeda (Chiba University) Morito Kurata (Institute of Science Tokyo)
18 : 00	International Poster Session / Poster Session <div style="border: 1px solid black; padding: 2px; text-align: center; margin-left: 20px;">Venue : Poster Room 1 (801 ~ 804) • Poster Room 2 (805 + 806)</div>		

Time Schedule (Day 2 November 8 (Fri))

Time	Venue : Hitotsubashi Hall		Chairs
8 : 00	Morning Session 「Experience the Advantages of Being a Pathologist: Introduction to Pathologist Activities Abroad」 MS Fumi Kawakami (University of Ryukyus) Naoto Kubota (Tochigi Cancer Center) Hironori Kusano (NHO Kokura Medical Center) Sponsored : International Committee of the Japanese Society of Pathology		Venue : Heian Toyonori Tsuzuki (Aichi Medical University) Mina Komuta (International University of Health and Welfare)
9 : 00	A-5	Epigenome analysis-based stratification of gastric cancer and its clinical significance Keisuke Matsusaka (Graduate School of Medicine, Chiba University)	Yae Kanai (Keio University)
9 : 40	A-6	Research of the functional role of macrophage activation markers and novel therapeutic strategies via their regulation Yukio Fujiwara (Graduate School of Medical Sciences, Kumamoto University)	Naozumi Ishimaru (Institute of Science Tokyo)
10 : 20	A-7	Pathomorphological analysis of tumor growth mechanisms supported by diverse stroma in the metastatic microenvironment Shinya Sato (Kanagawa Cancer Center Research Institute)	Genichiro Ishii (NCCHE)
11 : 00	A-8	Comprehensive research on identification of novel biomarkers as a therapeutic target for ovarian clear cell carcinoma Toshihide Matsumoto (School of Allied Health Sciences, Kitasato University)	Daichi Maeda (Kanazawa University)
11 : 40	B-2	Clinicopathological study of solitary pulmonary capillary hemangioma Hirotsugu Hashimoto (NTT Medical Center Tokyo)	Daisuke Matsubara (University of Tsukuba)
12 : 10	Luncheon Seminar 4 Venue : Hitotsubashi Hall Significance and Challenges of Biomarker-Based Pathological Diagnosis in Gastric Cancer Takeshi Kuwata (National Cancer Center Hospital East) Chair : Ryoji Kushima (Shiga University of Medical Science) Sponsored : Daiichi-Sankyo Co., Ltd	Luncheon Seminar 5 Venue : 701+702 Biomarker testing in gastrointestinal cancer Tetsuo Ushiku (The University of Tokyo) Chair : Koji Tsuta (Kansai Medical University) Sponsored : ONO PHARMACEUTICAL CO.,LTD. / Bristol-Myers Squibb K.K.	Luncheon Seminar 6 Venue : Heian A new era of gastric cancer treatment brought by CLDN18/ Zolvetuximab Satoshi Yuki (Hokkaido University Hospital) Takashi Yao (Juntendo University) Chair : Shigeki Sekine (Keio University) Sponsored : Roche Diagnostics K.K.
13 : 10	Special Lecture on Pathological Diagnosis 2 SLPD2 Update on pathological diagnosis of endocervical adenocarcinoma (ECA) Takako Kiyokawa (The Jikei University School of Medicine)		Yoshiki Mikami (Kumamoto University Hospital)
14 : 15	Awards Ceremony		
14 : 40	Special Lecture 「Advancement of Medical Research through Medical-Engineering Collaboration: Development of Novel Cancer Therapies Using Delivery System of Bioactive Proteins」 SL-1 Development of Novel Therapeutic Agents Targeting Tumor Microenvironment Networks Tetsuro Watabe (Institute of Science Tokyo) SL-2 Core design of polymeric micelle for delivery of bioactive proteins Nobuhiro Nishiyama (Institute of Innovative Research, Institute of Science Tokyo / Innovation Center of Nanomedicine (iCONM))		Kenichi Ohashi (Institute of Science Tokyo)

15 : 40	<p>Symposium 2 「The Cutting - Edge and Future Perspective in Gastrointestinal Pathology」</p> <p>SY2-1 The Differences in Gastrointestinal Pathology between Japan and the United States Yukihiro Nakanishi (Department of Pathology, Moffitt Cancer Center/University of South Florida)</p> <p>SY2-2 Collaboration between pathologists and endoscopists for "The Final Diagnosis" Takuji Gotoda (Cancer Institute Hospital)</p> <p>SY2-3 Advancing MSI Gastric Cancer Research from a Pathologist's Perspective by Integrating Morphological and Genomic Analysis Akiko Takase (The University of Tokyo)</p> <p>SY2-4 Autoimmune Gastritis: A Diagnosis Driven by Pathologists Hiroshi Kawachi (Cancer Institute Hospital, Japanese Foundation for Cancer Research)</p> <p>SY2-5 Recent classification and diagnosis of colorectal serrated lesions Taiki Hashimoto (National Cancer Center Hospital)</p> <p>SY2-6 Recent Advances in Inflammatory Bowel Disease Associated Neoplasms Mai Iwaya (Shinshu University Hospital)</p>	<p>Hiroshi Kawachi (Cancer Institute Hospital, Japanese Foundation for Cancer Research)</p> <p>Tetsuo Ushiku (The University of Tokyo)</p>
17 : 40	Closing Remarks	
18 : 00	<p>Companion Meeting 1 (Japan Pulmonary Pathology Society (JPPS)) Venue : Hitotsubashi Hall</p> <p>CM1-1 Roles of extracellular matrix in pulmonary diseases Tomoyuki Nakamura (Kansai Medical University)</p> <p>CM1-2 A fresh look at eosinophilic diseases: Insights from cell biology Shigeharu Ueki (Akita University Graduate School of Medicine)</p> <p>Chair : Koji Tsuta (Kansai Medical University) Naoki Yanagawa (Iwate Medical University)</p> <p>Organizer : Chiho Ohbayashi (Shinko Hospital: President of JPPS) Noriko Motoi (Saitama Cancer Center: JPPS Meeting Secretary)</p>	<p>Companion Meeting 2 (The 15th Clinico-Pathological Conference on Maternal Death) Venue : Heian</p> <p>Case Study A case of maternal death due to domestic infection with hemolytic streptococcus type A Yuri Noda (Kansai Medical University Hospital)</p> <p>An autopsy case of amniotic fluid embolism Yui Hattori (Hiroshima Prefectural Hospital)</p> <p>An autopsy case of maternal death due to atypical hemolytic uremic syndrome Osamu Maenishi (Kindai University Hospital)</p> <p>Organizer : Makoto Takeuchi (Osaka Women's and Children's Hospital) Tomoko Wakasa (Nara Hospital, Kindai University) Murasaki Aman (University of Miyazaki)</p>

On-Demand

Open Period: November 19(Tue.) ~ December 23 (Mon.)

Web Seminar

- WS1 The latest information related to biomarkers testing for gastric cancer - practical points of PD-L1 scoring -**
Takeshi Kuwata
(National Cancer Center Hospital East)
- WS2 Efficient management of pathological laboratory by leveraging full-automated IHC staining solutions**
Takeshi Uehara
(Shinshu University School of Medicine)

Sponsored : Agilent Technologies Japan, Ltd.
